PREAMBLE

The development of an anti-bullying and anti-violence (ABAV) plan is one process among a set of actions implemented by the educational institution to ensure a healthy and safe environment. The prevention of violence and bullying requires ongoing actions that depend, in particular, on the continuous and consistent application of the rules of conduct and safety measures approved by the governing board. In accordance with the *Education Act (EA)*, the rules of conduct must specify, in particular:

- the attitudes and conduct that are required of students at all times;
- the behaviours and verbal or other exchanges that are prohibited at all times, including during school transportation, regardless of the means used, including social media;
- the applicable disciplinary measures, according to the severity or repetitive nature of the prohibited act.

Furthermore, the rules of conduct and the safety measures must be presented to the students during a civics session held each year by the principal in collaboration with the school staff. They must also be sent to the parents at the beginning of each school year (*EA*, s. 76). Often outlined in the educational institution's code of conduct, these rules of conduct are intended to ensure the best possible conditions for success and the proper operation of the school. They establish the expected everyday behaviours for fostering community life (e.g. respect, civility). The objective of the anti-bullying and anti-violence plan is to develop ways of preventing the occurrence of any situation of bullying or violence, and to plan out the actions to be taken when such a situation unfortunately arises.

In this template for the anti-bullying and anti-violence plan, the term “instigator” replaces the more widely used term “author,” particularly in legal frameworks. The term “instigator” is thus used in this document except when those legal frameworks are cited.

In this template, the term *parent* is used in accordance with the *EA*: “The word ‘parent’ means the person having parental authority or, unless that person objects, the person having custody de facto of the student” (art. 13, *EA*). We recognize that families take many forms and remain committed to using inclusive language and practices that respect all caregivers and guardians.

Since Bill 40 currently does not apply to English School Boards, ABAV plans are not a legal obligation for adult education and vocational centres. However, the Lester B. Pearson School Board (LBPSB) and our Centre Directors are committed to their implementation. In this template, the term “principal” also applies to Centre Directors, where applicable.

INTRODUCTION

In order to clarify the duties and responsibilities of educational institutions and all school stakeholders involved in situations of violence and bullying, the *Education Act* (hereinafter, “EA” [CQLR, c. I-13.3]) requires every educational institution to develop a plan aimed at preventing and putting an end to all forms of bullying and violence and, more specifically, at making the institution a healthy and safe learning environment, so that every student attending it can develop their full potential, free from any form of bullying or violence. In addition, the adoption of the *Act Respecting the National Student Ombudsman* (S.Q., 2022, c. 17, hereinafter, “ANSO”) has led to further amendments to the EA.

In particular, the EA therefore stipulates the following:

- The principal shall see to the implementation of the anti-bullying and anti-violence plan, and shall promptly deal with any report or complaint concerning an act of bullying or violence that they receive or that the regional student ombudsman sends to the principal (EA, s.96.12). The principal shall assist the governing board in the exercise of its functions and powers and, for that purpose, they shall coordinate the development, the review and, if necessary, the updating of the anti-bullying and anti-violence plan (EA, s.96.13). The principal shall see to it that all school staff members are informed of the school’s rules of conduct, safety measures and anti-bullying and anti-violence measures, and of the procedure to be followed when an act of bullying or violence is observed (EA, s.96.21).
- Every school staff member shall collaborate in implementing the anti-bullying and anti-violence plan and shall see to it that no student in the school is the victim of bullying or violence (EA, s.75.3).
- The governing board is responsible for approving the anti-bullying and anti-violence plan, and any updated version of the plan, proposed by the principal (EA, s.75.1).
- A document explaining the anti-bullying and anti-violence plan must be distributed to parents. The governing board shall see to it that the wording of the document is clear and accessible. The document must indicate that it is possible to make a report or file a complaint concerning an act of sexual violence to or with the regional student ombudsman and, for a person who is dissatisfied with the follow-up on a complaint filed with the institution, to use the complaint processing procedure provided for in the ANSO (EA, s.75.1).
- The anti-bullying and anti-violence plan must be reviewed each year, and updated if necessary. The principal of the school sends a copy of the anti-bullying and anti-violence plan and any updated version to the National Student Ombudsman (EA, s.75.1).
- Each year, the governing board shall evaluate the results achieved by the school with respect to preventing and dealing with bullying and violence (EA, s.83.1).
- A document reporting on the evaluation must be distributed to the parents, the school staff and the regional student ombudsman (EA, s.83.1).

DEFINITIONS		
<i>Conflict</i>	<i>Violence</i>	<i>Bullying</i>
Misunderstanding or disagreement between two or more individuals who do not share the same point of view, values or interests. There are no victims, even if the individuals may feel like they are losing. A conflict may be resolved either through negotiation or mediation.	Any intentional demonstration of verbal, written, physical, psychological or sexual force which causes distress and injures, hurts or oppresses a person by attacking their psychological or physical integrity or well-being, or their rights or property (EA, s. 13).	Any repeated direct or indirect behaviour, comment, act or gesture, whether deliberate or not, including in cyberspace, which occurs in a context where there is a power imbalance between the persons concerned and which causes distress and injures, hurts, oppresses, intimidates or ostracizes (EA, s. 13).
<i>Acts of Sexual violence</i>		
For the National Student Ombudsman, an act of sexual violence is defined as any act involving a sexual component, committed with or without physical contact, including through technological means, toward a student, without their consent or in the presence of a power imbalance. Such an act is likely to raise concern for the safety or development of one, several, or all individuals involved. This act may take the form of gestures, words, attitudes, or behaviors, including those targeting individuals of diverse sexual orientations and/or gender identities. This definition applies without distinction to student perpetrators aged 12 and over but requires an assessment of reported sexualized behaviors in order to apply it to preschool-aged children or students under 12 years of age. It should be noted that sexualized behaviors exhibited by students under 12, considered either healthy or inappropriate in a school context, are therefore not targeted by this definition.		

Racism and Discrimination

Racism:

Corresponds to the “set of ideas, attitudes and actions whose purpose is to make ethnocultural and national groups feel inferior socially, economically, culturally and politically, thereby preventing them from benefitting fully from the advantages to which all citizens are entitled.” Racist discourse is usually based on real or presumed physical and cultural differences ([Ministère de l’Immigration, de la Diversité et de l’Inclusion, 2015](#)).

Discrimination:

Every person has a right to full and equal recognition and exercise of his human rights and freedoms, without distinction, exclusion or preference based on race, colour, sex, gender identity or expression, pregnancy, sexual orientation, civil status, age except as provided by law, religion, political convictions, language, ethnic or national origin, social condition, a handicap or the use of any means to palliate a handicap. Discrimination exists where such a distinction, exclusion or preference has the effect of nullifying or impairing such right ([Charter of Human Rights and Freedoms section 10](#)).

General information:

The application of disciplinary measures will be determined following an analysis of the incident(s). The severity of bullying and violent acts are measured by their intensity, frequency, consistency, persistence, context, and impact on students.

The severity of bullying or violent acts will be evaluated according to:

The criminal justice system for adolescents encourages rehabilitation and reintegration. The educational institution may be responsible for the enforcement of extrajudicial sanctions applicable to people who are instigators of violence in school contexts.

- Engage the student in restorative practices, if appropriate, to repair harm.
- Follow mandatory reporting obligations and legal requirements (e.g., DYP or police)
- Monitor progress and follow up to ensure behavioural change and ongoing safety of the school community

If legal proceedings have taken place and a student was found guilty of a criminal offence, the educational institution may be required to apply the judicial measures imposed on the student.

OTHER ACTIONS SPECIFIC TO SEXUAL VIOLENCE

Prevention measures aim to change attitudes, behaviours, and school culture in order to reduce the likelihood of sexual violence occurring in the first place. Safety measures, by contrast, aim to change the environment and procedures to limit opportunities for sexual violence and to ensure safety in daily school life. While they cannot address every context, safety measures strengthen protection within the school community and complement prevention initiatives.

Safety measures to stop sexual violence

Safety measures:

- Ensure supervision of student facilities without compromising privacy
- Provide supervision in high-risk areas (e.g., stairwells, hallways, and playgrounds) particularly during unstructured times
- Ensure controlled access to isolated or unused spaces (e.g., storage rooms, empty classrooms) by locking them or limiting entry
- Maintain professional boundaries by avoiding staff-student communication outside school hours (social media, texting, email)
